*Guidelines for submission of Abstract :

- All abstract must be submitted in the proper format to the secretariat before 31st July 2010.
- The abstract with the title, name of author(s) should be within 250 words.
- The title should be comprehensive and should include institution, city and state. Do not include degree or titles. The name of the presenting author should be underlined. Surnames first and initials only. This should be followed by key words.
- The abstract should be presented as a single paragraph without subheadings. The confirmation of acceptance by the scientific committee and the exact time and day of presentation will be communicated to the presenting author by 31st August 2010. Please contact the conference secretariat, secretary, HSI-10, if no answer is received by 7th September 2010.
- To avoid 'no show' only those presentation will be printed in the scientific programme where the presenting author has registered for the conference.
- Kindly prepare your abstract in MS WORD format and send the full text-online(herniaworkshop@yahoo.com) as well as hard copy and CD to both the HSI-10 secretary and Organising Secretary.
